SHEET 2

LINE 26

Mr. June 1950 49 Ken

(C-24.04)

• **Figure 10.10** illustrates the relationship between the number of units produced and the total cost of production. The total cost curve is U-shaped, reflecting the U-shaped average total cost curve. The total cost curve starts at the origin (0,0) and increases at an increasing rate as the number of units produced increases. The total cost curve is the sum of the total variable cost curve and the total fixed cost curve. The total variable cost curve is a straight line starting at the origin, and the total fixed cost curve is a horizontal line. The total cost curve is the sum of these two curves.
